Database: Scopus

Note: Our access to Scopus is through the HAM-TMC Library.

**How do I access the database?**

From the Library’s homepage: [https://www.sph.uth.tmc.edu/library](https://www.sph.uth.tmc.edu/library)

1. Click on the **drop-down box** underneath the find it fast search box.
2. Click on the **Scopus** link. You will be directed to the HAM-TMC authentication page.
3. Click on the **Click Here for Blackboard Login**. When asked for a login, you have the option of using your university username & password. The button is located *below* the HAM-TMC username/password.
4. You will then be redirected to another UTHealth Blackboard login page.
5. You will be asked to identify your home institution. Choose **University of Texas Health Science Center at Houston** from the first dropdown menu.
6. Select **Remember for session**, which will clear your choice when you close the browser or **Remember for a week**, which will keep your choice active for five days.
7. This will take you to the Shibboleth login page
8. Log in with your **university username** and **password**.
9. Click on the TMC Library tab. You will be redirected to their page with a list of top databases.
10. Select **Scopus**. You will be taken back to the original blackboard login screen. Click the Blackboard login link, and Scopus will open.
Steps to Mark items
1. After conducting a search, check the box next to the item(s) you wish to export.
   You may also export by Page or All results.
   **Note:** No more than 500 citations may be added at a time.

Steps to Export Items
1. Click on **Export** in the gray box locate directly above your search results.

On the Output page
1. Choose **RefWorks direct format** as the export format.
   Select **Citations only** as the output.
2. Click **Export**.

Send citations to RefWorks
1. Log into your SPH RefWorks account.
In RefWorks

It is helpful to have RefWorks open already as you must be logged into your account in order for the import to be completed.

**View Imported Articles**
1. The number of items imported is displayed.
   - Click the **View Last Imported Folder** button to display the citations that were just imported.

**Put Items in a Folder**
1. In the **References to Add** section, select the radio button next to **All in List**.
2. Click on the **Add To** (folder with green plus) icon, then select a folder.
   - **Note:** If you have not done so, create a folder for this search.
   - For more information, see our **RefWorks: Introduction** handout.
   - If you are working on a research paper for a class, assign a topical name (i.e. “breast cancer screening”). If you are working on a systematic review, call the folder “Scopus” or the name of the database you have just searched. More information about using RefWorks for systematic reviews can be found on the **Guides to Using Library Resources** page.
3. A green message prompt in the lower right side of your screen indicating the action has been completed.
4. Each citation in the Last Imported folder will now be in both the **Last Imported** folder and the folder you have specified (in this case, **prion inhibition**).
